

Description

Fully synthetic chain grease, extremely adhesive and water resistant. Excellent creep ability and lubrication behavior. Extremely effective and lasting on high-speed chains. Provides increased chain life and reduced elongation.

Properties

- reduces chain elongation
- friction and wear reducing
- resistant to acceleration forces
- excellent adhesion
- especially cold, hot and splash-water resistant
- highest load-carrying capacity
- excellent penetration action
- outstanding corrosion protection

Technical data

Base	Synthetic oil, additives
Color / appearance	clear, yellowish
Operating temperature range	-22 bis +356 -22 to +356 °F
Odor	characteristic
Form	liquid, aerosol
Flash point	14 °F

Areas of application

Fully synthetic formulation for initial lubrication or maintenance of drive chains. Excellent for use in dusty, dirty and corrosive operating conditions. For high load- and high-speed chains with and without O/X-rings.

Comment

⚠ WARNING: Reproductive Harm - www.P65Warnings.ca.gov.

Application

Use suitable chain cleaner before application. Spray Motorbike Chain Cleaner onto cleaned chain. Allow enough time for lube to penetrate and stabilize before use.

Available pack sizes

400 ml Can aerosol	20162
	CANADA-EN-F
400 ml Can aerosol	20350
	USA-EN
